PRAYER UPDATES

Linda Willis - Linda had a 1.5cm tumor on the frontal lobe of her brain and was removed 12/20. The surgeon said that the tumor appeared abnormal, but the biopsy report will not be back for 5-7 days. Although there might be some temporary weakness on her left side, he expects a full recovery. She will probably be facing some radiation based on what the biopsy shows.

They still have hurdles to overcome, but are very thankful that the surgery is over. Please continue to pray for peace, comfort, and healing.

Sharon Frenn - been moved from the hospital to Eagle's Trace skilled nursing facility. She is undergoing rehab and other treatment in the hopes of returning home at some point in the near future. Eagle's Trace is on Highway 6 near Briar Forest. Please call Sharon on her cell phone before going to visit and she can give you further instructions.
